

American Brain Tumor Association

*Brain tumors do not discriminate, anyone can be affected -  
the very young, those in their prime, seniors, male, female - anyone!*

**American Brain Tumor Association Fellowship**

in memory of

**Marsha Mae Moeslein**

In gratitude for support and encouragement of our research programs, the American Brain Tumor Association (ABTA) has awarded a Research Fellowship to Haoqiang Ying, PhD at Dana-Farber Cancer Institute in memory of Marsha Mae Moeslein, mother of Craig Dooley and Kevin Dooley of Wentzville.

This coveted, peer-reviewed, two-year award helps to ensure a continuum of dedicated, well-trained brain tumor researchers. Criteria for award selection include the quality of the applicant, the quality of the training program, and the proposed research.

The Association also provides free patient education and resource information to help brain tumor patients and their families understand this disease and learn about available treatment options.

For information, call 800-886-2282 or visit the ABTA website at [www.abta.org](http://www.abta.org).
